Capt. W. W. Bradshaw's Sunday School Work.

The American Sunday School Union presents a brief statement of Capt. W. W. Bradshaw's Sunday School work up to three years before his death. Comes from his Superintendent S. D. Henderson, Ky., Rev. J. H. McCullagh. Capt. W. W. Bradshaw was a noted cavalry officer during the civil war. For the past twenty-eight years he has been our intrepid misssonary in the roughest mountain region of Kentucky. In a number of counties he established the first Sabbath schools ever known within their bounds.

At the risk of his life, he has visited communities rent asunder by bloody feuds and unfurled the Gospel standard of peace and good will. The following Illustrates some features of his work.

One thousand and forty Sunday Schools, located in fifty-six different counties have been organized by Capt. W. W. Bradshaw,. These schools have furnished instruction for eighty thousand children. One hundred and two young men from these schools have become ministers, seventy-eight churches have been organized and nine thousand conversions reported.

Visiting the communities where he started the work, he was glad to find so many Schools in a flourishing condition after more than twenty years of usefulness. At one point a prominent phisician said, "Bradshaw this place is not as you knew it years ago, when you were around here organizing those Sunday Schools, I did not believe they would amount to any thing. But they are mcnuments which will last forever. Instead of this being one of the worst places in the state, it is now as good as the best. I have practiced through ehis section for thirty-five years and know what it was then, and what it is to day."

This commendation may also be applied to the schools of our other mis-

The Secretary of Missions, Philadelphia, Pa., gives a copy of the resolution adopted by the Board of Managers of the American Sunday School Union on January 3rd. 1913.

Resolved, That we recognize that in the death of Capt. W. W Bradshaw the world loses a good man and that Methodist Minister Recommends this Secrety loses a wise, faithful aggressive and singularly successful Missionary, who through the long period of thirty one years of service in this relation has given evidence of his tireless energy and unswerving devotion to the interest of the spiritually destitute boys and girls in the mountain regions of Eastern Kentucky."

Mass Meeting.

A mass meeting was held Sunday afternoon Feb. 2 1913, in the methodist church, Columbia, Ky., to indorse the Kenyon-Sanders anti-shippers bill now pending before congress.

On motion Judge N. H. Moss was unanimously elected chairman and Chesterfield Turner, secretary.

J. S. Chandler, pastor of methodist church, spoke as to the purpose of the bill, pointing out the great victory which the passage of this bill would give the anti-saloon people. He read a letter urging our two United States Senators to use their vote and influence for this bill. On motion of Rev. Chandler the letter was referred to the following committee:

F. R. Winfrey, G. B. Smith and Dr. U. L. Taylor. The letter was reported and adopted as read with this sug-

Old Age

Ole age as it comes in the orderly process of nature is a beautiful and majestic thing. It stands for experience, knowledge, wisdom, counsel. That is old age as it should be, but old age as it often is means poor digestion torpid bowels, a sluggish liver and a general feeling of ill health, despondency and misery. This in almost every instance is wholly necessary. One of Chamberlain's Tablets taken immeniately after supper will improve the digestion, tone up the liver and regulate the bowels. That feeling of despondency will give way to one of hope and good cheer. For sale by Paull Drug Co.

The Popular Vote.

The common belief that the presidential vote in 1912 was less than the presidential vote in 1908 is incorrect. According to the official figures compiled for the World almanac the total vote this year was 15,033,669, as against 14,888,442 four years ago, an increase of 145,227.

But only the socialists profited from this larger vote. They alone made gains, and very significant gains. Debs vote in 1908 was 420,793; in 1g12 it was 900,672, an increase of more than 100 per cent.

As for the Democrats, Wilson polled a total of 6,293,454, as against Bryan's total of 6,499,-104 in 190°, a decrease of 115,-650. Stranger still, the total vote cast for Taft and Roosevelt was less than the total Republican vote in 1908. Taft's 1912 vote was 3,484,980 and Roosevelt's was 4,I19,538, Together they polled 7,504,518, which falls 74,390 under Taft's total of 7,-678,908 four years ago.

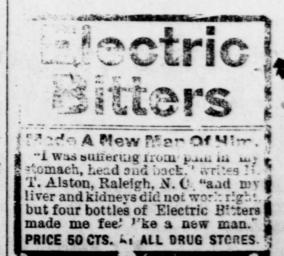

Even the Prohibtionists suffered from apathy. Their vote in November was only 206,275 compared with 253,800. This loss of 47,565 is nearly one-fifth of the total.

It is a curious fact that with the exception of New Hampshire all the New England states cast more votes in 1912 than in 1908. The middle states of New York, New Jersey and Pennsylvania cast fewer votes in 1912 than in 1908. Ohio Indiana, Illinois, Wisconsin, Nebraska and Iowa also took less interest in the I912 campaign than in the I908 campaign The same is true of the border states, Kentucky, Tennes see and Missouri.

There's no uniform rule applying to the south. Alabama, for example, cast more votes than in 1908 and Georgia cast fewer votes. Texas showed a large increase, while South Carolina a large decrease, while Virginia's slump was exactly 70 votes and Oklahoma's was 839.

The mountain states showed an increase. Coloredo, Utah, Wyoming, Montana and Idaho cast more votes than they did in 1908. By reason of woman's suffrage, Colifornia's vote should have doubled, but her I912 vote was only 673,527, as against 386,-597 in 1908. Apparently nearly 100,000 qualified citizens of California remained away from the

The most significant fact in all these returns is the increase and distribution of the socialist vote. It is not a sectional votes, for the banner socialist states in this election were Ohio, Pennsylvania, Illinois, California, New York, Oklahoma, Washington, Indiana, Wisconsin and Missouri in the order named, while in Idaho more than 10 per cent of the total vote was socialist. This is something for Democrats and Republicans alike to think about seriously.

BENT BACK THE RULE.

Where Sauce For the Goose Was Not Sauce For the Gander.

In the early days of a certain club of New York, when it was rather harder sledding for the club than it is at the present time, in a meeting of the council the question came up as to the arrears of members' dues, and the treasurer reported that one man was particularly recreant in this regard. It was in the winter, and the club was then maintaining throughout the day and evening beautifully heated and lighted quarters. At this time the only person in the club who frequented it every day was this delinquent, who, in addition to doing a large portion of his writing there, was accustomed to make considerable inroads upon the stationery of the club for home consumption.

At the meeting of the council referred to there was protest against this state of affairs, and a determination was manifest to put an end to it. and after discussion the secretary was instructed to notify the member in question that his name had been dropped from the rolls of the club.

The question then arose whether there was anybody else who was in arrears, whereupon the treasurer reported that this was true of another mem-

community when conditions forced the withdrawal of Automobile service between Columbia and Campbellsville. In another column the reasons given for this action are clearly set out by the

gentlemen who took this step. No one can justly censure their action. We may fear they acted hastily, we may feel that a little longer testing of their patience would probably have dispelled their difficulties and cleared the way for permanent and improved transportation facilities, but regardless of any speculation in future conditions the fact remains that they believe that it was the safest and best for the public as well as themselves. As the question is presented the blame rests with the pike company of which Mr. Gowdy, of Campbellsville, is President. Are You Nervous?

What makes you nervous? It is the weakness of your womanly constitution, which cannot stand the strain of the hard work you do. As a result, you break down, and ruin your entire nervous system. Don't keep this up! Take Cardui, the woman's tonic. Cardui is made from purely vegetable ingredients. It acts gently on the womanly organs, and helps them to do their proper work. It relieves pain and restores health, in a natural manner, by going to the source of the trouble and building up the bodily strength.

Mrs. Grace Fortner, of Man, W. Va., took Cardui. This is what she says about it: "I was so weak and nervous, I could not bear to have anyone near me. I had fainting spells, and I lost flesh every day. The first dose of Cardui helped me. Now, I am entirely cured of the fainting spells, and I cannot say enough for Cardui, for I know it saved my life." It is the best tonic for women.

Do you suffer from any of the pains peculiar to women? Take Cardui. It will help you. Ask your druggist.

Some Facts About Turkeys.

Turkeys kept for breeding stock should be the best that here is in the flock. It is difficult for some people to keep heir best turkeys and send the others to market, but it's the only sensible way to do. The habit of selling the best is not char acteristic of only the least intelligent people; it is common with the peo ple who have raised turkeys all their lives, and people ho would not think of breeding so. her stock of the farm in such a reless way. These people ve attained the success and

profits in turkey raising that are enjoyed by the man who handles them as fairly as he does his cows and hogs.

The best care in the world can do little with poorly bred poults and turkey chicks. You cannot expect large turkeys from small breeders. Size is not the only thing to be considered in selecting the stock; thrift and firmness have as much to do with the

And on top of all, do not ruin the vigor of your strain by too early breeding.

The Girl Part of the Boy Probl em.

(Do girls and women realize what a part their dress plays in the life of the world about them? There would be a swift and radical change in the dress of some, upon boys and men of their present mode of dressing. Probably not before in this generation have there been any such prevailingly offensive styles in the women's dress of America as there are today. Need it continue? Mr. Foster's frank words are sorely demanded. May there be a genuine response to this protest, for the safe-guarding of lives into which evil now finds so ready an access.

Not that I have relation- lose? ships with any such number; but along with definitely constructive duties I am set as a watchman upon the wall to sound the alarm when any danger seems to menace the boyhood life of the community. This charge makes me of necessity a student of boyhood life in large cities, and I have in mind to write with earnest frankness concerning a phase of the girl element that appears to be a new menace-impossible as it has been proved to be for anything to be really new.

especially as seen upon our city saving that it is not alone immodest, but is as well immoral; and I greatly fear that we shall soon see an overwhelming torrent of moral laxity engulf our youth. Indeed, it is here.

I have never known a time in any of our cities when the young man intent upon picking up acquaintance with a girl on the street not be reasonably sure of accomplishing this with a small amount of effort in certain fairly well-defined sections; but never in all my observation until lately, have I know a time when, by day or night, thoroughfares devoted to shopping or business, a procession of girls sweep past a young man in dress so vulgar that he might fairly-even though misiakenly-assume that they are on parade to invite his advances. The dress of a girl today causes her to be thrust upon him, perhaps at times when his own thoughts are far from the realm perhaps with no desire on her part to arouse such interest.

I do not write as a fashion critic; I write as man who daily faces the moral issues raised by these things. But I want to be specific. There are prevailing styles of dress which are offensively immodest. Among these are: The tight-fitting waist; the 'peek-a-boo' waist, in its really offensive forms (a common object of jest, while it goes on sowing seed for its unhallowed harvest;) some styles of low neck and short sleeves which many girls affect; many forms I refer to the prevailing man- of tight-fitting skirts; skirts ner of dress among women, more offensively short; certain types of hosiery. The list might easistreets. I have no hesitation in ly be made longer; it is merely used by way of illustration.

Women are crying out because of the libertines among men. I believe their cries rise to Heaven, and that Heaven weeps over the shame of it. But I say withought hesitation that these prevailing styles of dress are lo:ing passions of countless thousands of growing boys whose physical fight is already severe.

Apparently she was unconscious of the fact that with her appearance on the street the ideals of womanhood were lowered in the mids of many men.

But it does not stop there. These women of better circumstances set the pace absolutely for the girl of small wages. The girl may have no home to which her friends may be invited; her social effort is expended in her dress. She follows the prevailing fashion of immodesty, she inflames the passion of the young men she meets; she may not be sheltered and safeguarded: and she is swept under.

Is there a cure for it all? It is a woman's problem. If going to the extreme in dress is more important in the eyes of womankind than safeguarding the pathways of sons, and brothers, and husbands, then it will continue. But those who see it as it is must raise their voices in protest.-Sunday School Times.

SAVE YOUR HAIR

While You Have Hair to Save. Use Newbro's Herpicide.

Every woman who is obliged to wear false hair or man, a toupee, feels that it is a misfortune. What makes the burden so doubly hard to bear is the knowledge that the loss of natural hair could, in most instant of the bar was the same and t GOING !!

loss of natural hair could, in most instances, have been easily avoided.

The arch enemy of good hair is the dandruff germ. This is now a well established scientific fact.

Thers is one remedy on the market which, used regularly, will kill the germ and keep out every trace of dandruff.

This remedy is Newbro's Herpicide long known as the Original Dandruff Germ Destroyer. By keeping the scalp clean, Herpicide not only prevents the hair from falling out but allows it to grow as nature intended. Begun in time and its use persisted in, this valuable remedy insures a nice healthy head of hair.

Herpicide imparts a life and luster to dull, dead wittle hair making it light, fluffy and beautiful. Don't wait. Begin now to save your hair. We guarantee the one dollar size bottle.
